

**Somali Federal Government, Ministry of Education  
GPE Replenishment pledge in Brussels**

Our Vision: *Excellent, accessible and meaningful education that leads to sustainable development.*

- The Federal and the state levels of the Somali governments have increased their education budgets for the 2014 /2015 , and we are **pledging** to increase 4.5% for the 2015/2016.

the government matched the GPE's teacher incentive and is **pledging** to continue that.

The Somali government (Federal and States) provides free land for any educational infrastructure development, and we are **pledging** to continue that.

- For our Go 2 school program, we combined the GPE fund with other funding from DANIDA, EU, Japan, USAID, Netherlands, DFID, Qatar's Educate a child and others. We are **pledging** to continue that.

The Somali Diaspora invests the education system in Somalia, and we are **pledging** to align that with other education funding.

- We are **pledging** to have more effective education systems, which addresses critical issues of equity, quality, and accessibility by implementing the Education Sector Strategic Plan.
- We are **pledging** a greater accountability through strengthening our quality assurance and data management systems.
